September 2016

To whom it may concern.

I confirm that I have known Maime Astic during son internship at W.

It was a real pleasure to work with her during 6 months in 2016. She is really hard-working, conscientious, reliable, creative and nice.
During her internship she worked on diferent projects, some really technical, some creative and some just more about consistency and presentation. Aways in a good mood and always willing to learn and evolve, her presence was essential in some projects.
She has the vision to create a consistent idéa, creatively and technical, in 6 mohth she has grown to be a great designer.

I'm happy to provide further information if required.

Yours faithfully,

Sonja König
Dir. de création W.
